Seeking a position in the Software Programming industry which will allow me to expand my skills while contributing to innovative projects. I am deeply enthusiastic about software development and have a strong drive to learn new technologies and programming languages. With a solid foundation in web development and proficiency in the MERN stack, I am eager to apply my knowledge and contribute to a dynamic team that values creativity, collaboration, and continuous improvement.

Education

2021
Computer programming
The College of Management

2019
Quality Assurance
John Bryce College

2014
Electrical Practical Engineering
Gimnasia-Realit

Expertise

- Java
- Python
- c#
- Asp.Net
- NodeJS
- React
- Angular
- MS SQL Server
- MongoDB

Language

English

Hebrew

Russian

Experience

2019- Present
- Back-End Technologies: Node.js, Express.js
- Front-End Technologies: React, Redux, Bootstrap, Material-UI
- Database Technologies: MongoDB,SQL,MySQL
- Java,C#
- Version Control: Git
- Additional Tools and Frameworks: NPM, RESTful APIs, JSON
- Web Security:Tokens (JWT), CORS

Projects
- Portfolio
- Pinvent-WebSite
- Github

About Projects

Pinvent - Inventory Website
- Developed an inventory management website called Pinvent for efficient tracking and management of products.
- Utilized the MERN stack (MongoDB, Express.js, React, Node.js) to build the application.
- Designed and implemented a user-friendly interface for adding, updating, and deleting products, as well as tracking inventory levels.
- Implemented user authentication and authorization to ensure secure access and appropriate data management.

Portfolio
- Developed a personal portfolio website to showcase your skills, projects, and achievements.
- Created a responsive and visually appealing user interface using modern front-end technologies such as React, Bootstrap, and Material-UI.
- Deployed the website using cloud platforms like Netlify or GitHub Pages to ensure easy accessibility.

Other Skills

- ·Work management software: Microsoft QC, Atlassian Jira.
- ·Software Quality assurance experience including write documents such as STP, STD, STR
- ·Requirements and specifications documents review and analyse to create test cases and scenarios to fully cover product testing according to requirements.
- ·Routers & Switches management and configuration according to network topology and users needs.
- ·Centrex Call Center maintenance to
- ·Distribute computer image files to users PC's.
- ·Create virtual servers by VMware & Hyper-V
- ·Manage users and policies in Active Directory, manage Group Policies (GPO)
- ·Work with Microsoft Office 365
- ·Provide high level Technical Support for company network device and users
- ·Administration of NAS File System
